Divatech (www.divatech.fr)

Context

Forum des Images (www.forumdesimages.fr) is a cultural center dedicated to cinema. Its 5 modern theater rooms can be used for different events (concerts, conferences). The major theater room (500 seats) has been completely renewed using an EtherSound network and a combination of Yamaha and AuviTran products.

Cinema control room

Main theater room

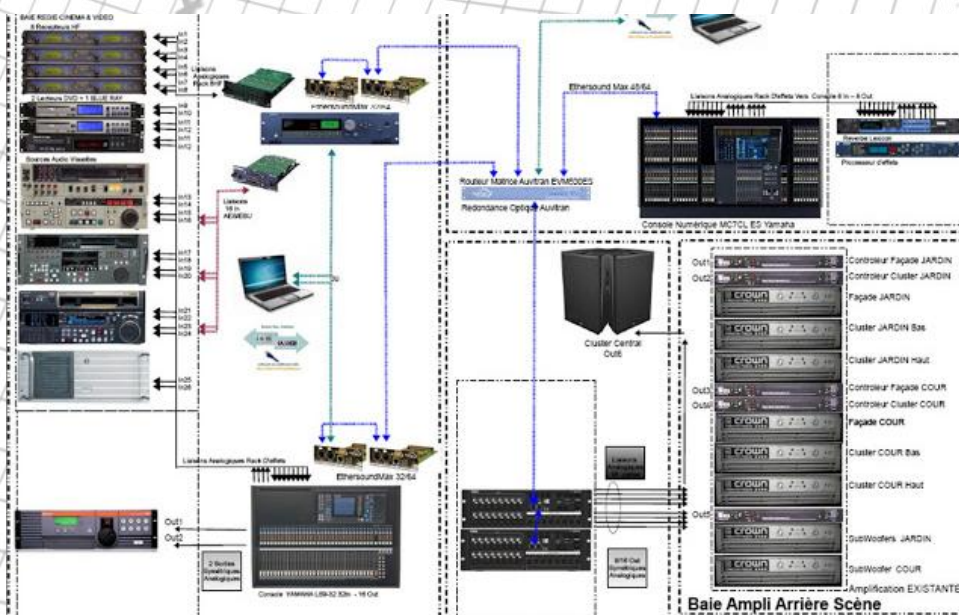

Main user advantages

Flexibility : macro functions allow to switch from a configuration to another (cinema/concert/conference)

Cabling made easy and simple control (stageboxes control from the consoles)

Audio quality : digital audio transport, immune to perturbations

Open for future expansions : AuviTran matrix provides room for future connections

Products involved

- Yamaha stageboxes and consoles
- AuviTran AVY16-ES100 EtherSound cards and matrix AVM500-ES
- Full control through AuviTran ESMonitor Software
